Designers: B&A

The Eternal Collection is a real invitation to infinite beauty. Coming into contact with stone, opening up to light, we discover a new and more sophisticated need for timeless design.

HEXAGON DAYBED AND LOW TABLE

It is imperative to be amazed by these elements where the stone is dressed in light and the rigorous shapes that the elements describe become scenographic magic. From sofas to tables, from lamps to kitchens, the Collection in its Hexagon and Square expressions describes this magnificent hypnotic, totemic, monumental vision.

Surprising connections between stone and light

The brightness that shines through the marble varies according to the external light and fascinates by creating unique scenery that gives golden reflections at night. Eternal is pure beauty, eternal contrast between stone and light, character and poetics, high craftsmanship and design that transforms pleasure into a convenient, essential need.

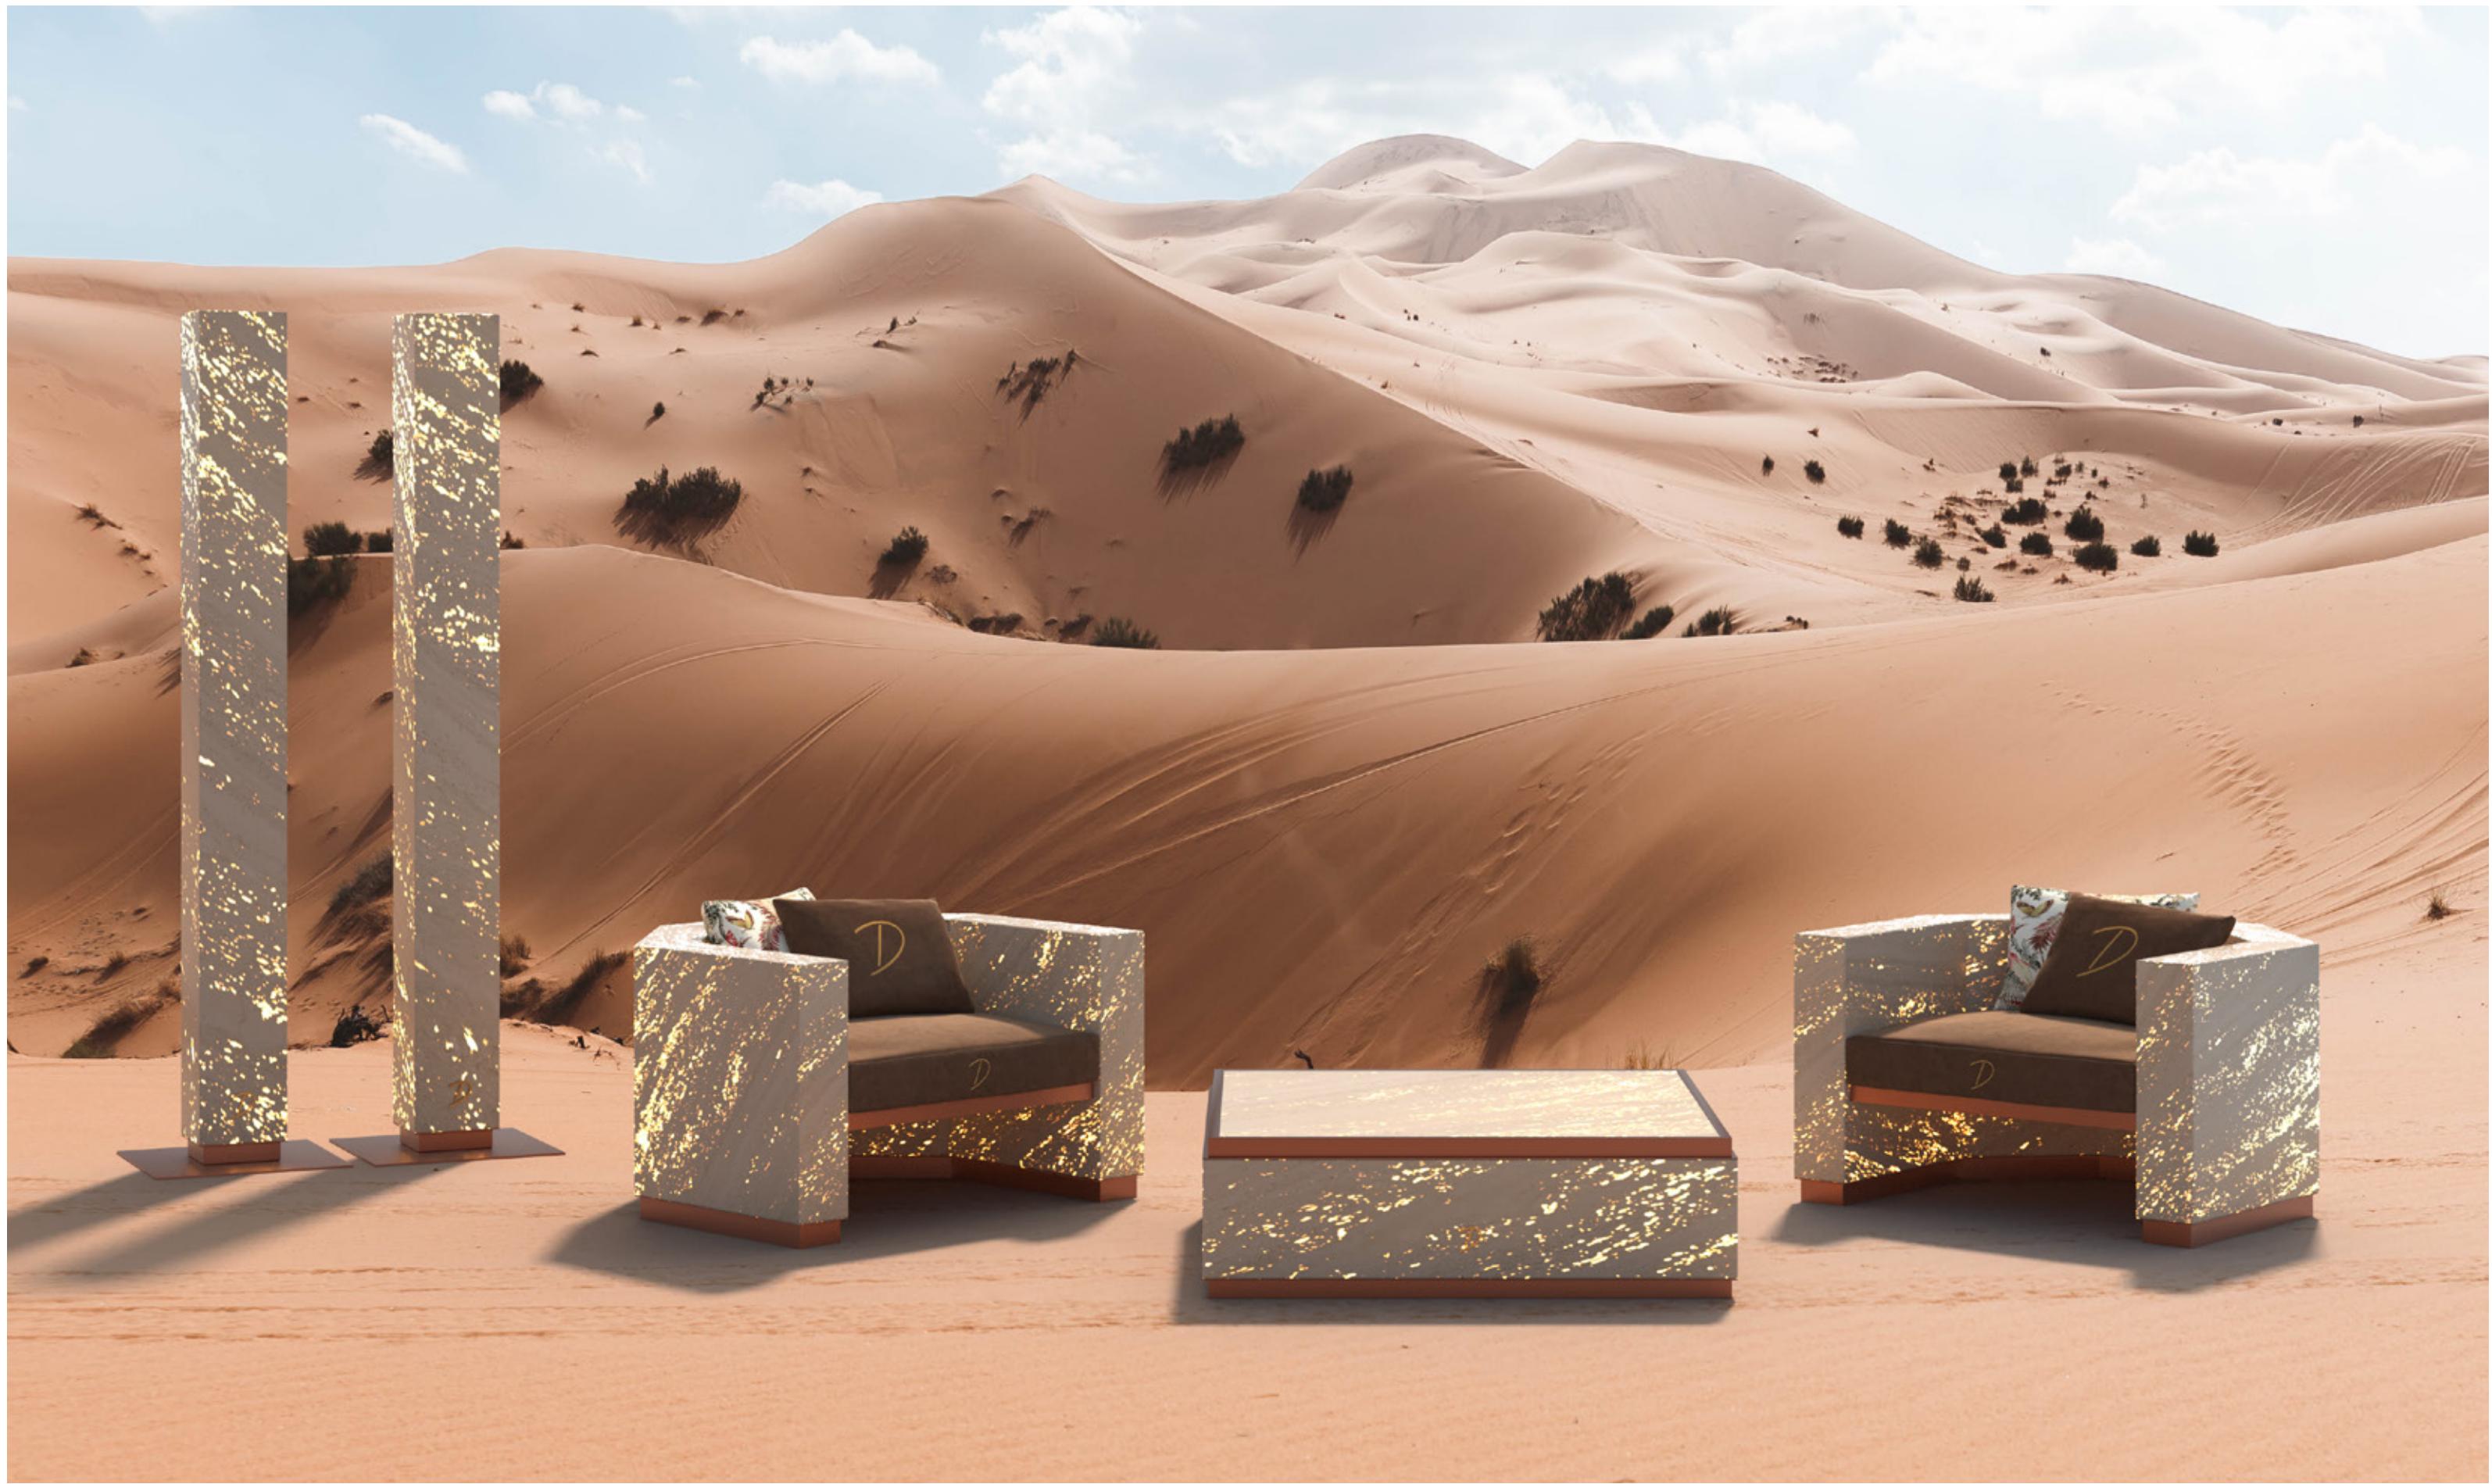

A black and white photograph of a vast desert landscape. The foreground is dominated by large, undulating sand dunes. Sparse, dark vegetation, including small bushes and clumps of grass, is scattered across the dunes. The sky above is filled with scattered, puffy clouds, creating a sense of depth and atmosphere.
